DOES NOT MEAN RAPID TRANSIT.

Mr. JAY GOULD is reported as having been very willing yesterday to talk to the that sort of wealth. Rapid Transit Commissioners, before whom he unfolded his proposed scheme of Elevated Railway extensions. This readiness of speech is not to be wondered at, since the ess of the plan set forth by Mr. Gould can best be hidden in a multiplicity of words. Stripped of the glowing detail which readily and naturally entered the mind of the man who controls the monopoly which the success of his scheme would so vastly enlarge, the Gould plan is the barest sort of an attempted grab, bold in conception, even for a corporation constantly and successfully daring so much.

Even the proposed broadening of the old Elevated system into a three-track road, thus completing the ruin of streets already seriously marred, is an idea that should not be entertained for a moment, and the further sacrifice business and residence thoroughfares of the town is still less to be thought of. Imagine Broadway, above Thirty-third street, disfigured by the unsightly fron framework of the Elevated road. Picture the Boulevard bereft of beauty, dignity and much of its use as our finest city driveway by the same nuisance.

These things are proposed in the Gould plan, along with extensions of the Elevated road through Centre, Canal and West streets. They alone would mark the scheme as one to be stamped with the immediate disapproval of the Commission. But beyond all, the scheme carries what should be its own death blow in the fact that, far from being a solution of the Rapid Transit problem, it would be a block to all real Rapid Transit progress for years to come. This it would come to be through its preoccupation of possible routes and the establishment of an opposition of unlimited money power against any later plans which might bear the real germ of Rapid Transit.

The Gould plan will not do. It does not mean Rapid Transit, It cannot meet too on the rejection of the Commission.

NOW WILL THEY OPEN IT? The Trustees of the Metropolitan Art Museum are said to be willing to open that treasure-house on Sundays provided the money which such a step calls for were provided.

Certain persons have therefore endeavored to raise the sum required-\$4,000-and have secured \$1,500. THE WORLD, which has always steadily advocated the Sunday opening, in order to hasten this desirable benefit to the people, offers to contribute the \$2,500 needed to complete the \$4,000, that there may not be the delay of collecting it from al subscriptions.

the better. THE WORLD is only too happy but refuses to part with it. to help in this result as much as possible, and sincerely hopes it may soon be obtained.

Mrs. Jennia June Croly is a little woman of siender figure. Her hair is brown, with a few stands of white in its. Mrs. Croly is a pleasant talker and an amiable and interesting woman.

Wolf's Creek is a small but lively place in the Tennessee Mountains. It is a nest of shiners" to begin with, so that the spirits of the inhabitants find no lack of occupancy of the house. Inbricating fluid with which to whet their feelings. An old man of seventy years, three weeks after his wife was laid to rest, that are four feet thick. espoused a buxom lass of seventeer The bridegroom's three daughters got their stepmother out in the woods and lashed her so that she shortly after died from the effect. Now there is much violent feeling over the matter in Wolf's Creek. most of the community sympathizing with the girls. Two or three men have already en shot, and the Sheriff is out gunning been shot, and the Sheriff is out gunning with a force. Wolf's Creek may be an in ignificant place, but it is not dead.

Up in Kingston they seem a trifle too punctilious. A man seriously ill with the grip was taken to the City Almshouse by the order of a physician who had been called in. He was refused admission without the commitment of a city physician. The Mayor then ordered that the sick man should be received, but the Almshouse dignitary also denied his jurisdiction. By the time the order be insisted on could be obtained the man was too weak to be removed again. Couldn't thing be done to the Almshouse man to teach him that common sense and decency are sometimes better than red tape?

Love is mighty and will prevail, as well as truth. A boy of thirteen was found concealed in an areaway with a five-chambered pistol on his person. Every chamber was loaded. He admitted when arrested and taken before the Judge that he was waiting for a rival, who had allenated the affections of his lady love, and that he meant "ter do him, sure." Warm-bearted child! "Love will find the way." The youngster is an Italian, too forrid for this cold region.

It really seems depressing that the Czarewitch should have come in for an attentio which would have been like the usual thing had it been shown to his papa. The young

man is making an extended tour and is at present in Japan. & A fanatical Jap tried to kill the young ROMANOFF with a sword, but was happily prevented. The assault seems to have been through pure personal "cuasedness," and the Japanese Court has shown the utmost regret for the occurrence. Still, the Czarevitch will probably not have very kindly feelings towards Japan for some time. It is taking time by the forelock to kill the

A Providence man who was drawn as a juror tried to escape serving by presenting 33.50 a physician's statement that his health would not permit of it. When this failed to exempt him he was so convinced that the confinement would injure him that he went out and drowned himself. There is no doubt but that one way to escape sickness is to die, but drowning oneself to avoid possible injury to health from jury-serving seems to show too much forethought alto-

Gen. Busser, of Iowa, tells the Harlem Republican Club that New York has too many Democratic newspapers. According to the Republican idea, it has also far too Twelfth street yesterday afternoon. Just nickle trimmings polished, and every hat, many Democrats.

UNIQUE IN ITS WAY.

The Bright Little Paper Published by Clerks in a Downtown House. There has come to THE EVENING WORLD & sued by the clerks of Bruce & Cook, 90 Water

Editor Edward L. Tibballs states that the Weekly Publishing Commany was started in January with a capital stock of \$7.50, and that it has already paid a dividend of 60 per cent. The declaration of such a dividend in less than x months is one of the most remerkable ex-meles of success in the history of news-

papers.

The weekly is of letter-sheet size, illustrated, two pages, printed on one side of the sheet only, by typewriter, and manifolded. It is bright and gosupy, and, as the editor thinks, "shout the first paper ever started like tols in a business house."
